Excellence

FROM THE PRINCIPAL

Dear Students, Parents, Guardians, Faculty and Staff,

As another remarkable term draws to a close, I want to thank you for the energy, joy, and commitment you've brought to our school community. From inspiring classroom moments to spirited soccer finals and memorable community and service events, this term has been another celebration of everything that makes St Andrew's exceptional.

Each time I visit a classroom, attend a sports fixture, or see students collaborating on a project, I'm reminded that we're not just finishing our best year so far —we're building towards something even better, day by day. And with everything we've already enjoyed, there's no doubt that the year ahead will hold even more to be proud of.

It's been a very productive year for major school developments, too. In terms of our campus, we've achieved much this year: new student bathrooms, a completed solar array and a completed redesigned front parking lot. We've introduced our new THRIVE functional life skills programme and have seen the first tangible benefits of our newly established scholarship and professional development endowments.

I owe a debt of gratitude to all of my hard-working faculty and staff, and we wish all the very best to those who are moving on to new adventures this summer. As we take a well-earned break, I hope this newsletter brings a smile, sparks a memory, or simply reminds you of what a special place this is to grow and learn.

Wishing you a wonderful summer.

Gordon McKenzie
Principal

celebration OF THE Arts

Our annual school concert, Celebration of the Arts, was a great showcase of creativity, talent, and hard work. Students from grades 2-12 came together to present an exciting evening filled with music, dance, drama, and visual art. We are proud of every student who took part and grateful to everyone who helped make the evening a success!

Lower Primary Sports Day

On February 18th, the sun was shining and spirits were high as our youngest students, from Preschool to Grade 1, enjoyed a joyful and action-packed Sports Day morning. The event was a wonderful celebration of movement, teamwork, and laughter — and it brought smiles to everyone's faces!

From ice cream relays, obstacle courses and water races, to cornhole, every activity was designed to encourage participation, build coordination, and, most importantly, have fun. Parents and teachers cheered from the sidelines, sharing in the excitement. This special day reminded us all that sports are about more than winning — they're about trying your best, supporting your friends, and enjoying the experience. A big thank you to our amazing staff, volunteers, and families who helped make Sports Day such a success.

We can't wait to do it all again next year!

The Creative Arts Department is thrilled to announce our production for the upcoming school year: *Beauty and the Beast Jr.*!

We encourage all interested Junior and Secondary students to begin preparing over the summer for auditions. This is a wonderful opportunity to showcase your talents and be part of a magical theatrical experience.

Stay tuned for more information on audition dates and requirements as we approach the new school year.

Eco Green Flag Renewal

On Tuesday, June 3rd, St Andrew's International School was proudly awarded our sixth consecutive Green Flag. It is a prestigious recognition of our unwavering commitment to environmental sustainability. This remarkable achievement highlights the dedication of our entire school community.

St Andrew's Shines at the National Arts Festival!

This year's National Arts Festival was another incredible success for our talented St Andrew's students, who proudly represented the school with outstanding performances across multiple categories. From the powerful sounds of brass and woodwind to the harmony of instrumental ensembles and captivating vocal solos, our students truly wowed the judges and audiences alike.

Competing with schools across the Bahamas, our musicians rose to the challenge, consistently delivering polished, passionate performances. We're thrilled to share that many of our participants received Merit and Distinction scores—an impressive achievement that speaks to their dedication and hard work.

As we await the final national results, anticipation is high! We look forward to celebrating our students' success at the National Awards Ceremony this December. Bravo to all who participated—you've made us proud!

Secondary Science Build A Bridge

St. Andrews International School was represented in the Integrated Building Services (IBS) Annual Build - A - Bridge Competition by a team of Grade 9 and 11 students. This competition, held on Friday 4th April 2025, challenged students to use their creative, innovative and critical thinking skills to design and construct model bridges which could support a significant load using only 100 popsicle sticks and Elmer's white glue. St. Andrews Hurricanes earned third place in the Aesthetics Competition. Congratulations to the team members, Joshua Rolle, Stanley Wilson, Trace Russell, and Ayaan Sareen.

SPORTS

BUZZ

It was another fantastic BAISS Soccer Competition for St Andrew's Hurricanes with all four of our teams making the BAISS playoff

SOCCER

It was another fantastic BAISS Soccer Competition for St Andrews Hurricanes with all four of our teams making the BAISS playoff stages after a hard fought season. The Junior and Senior girls teams both ended up finishing in 3rd place, but the Junior and Senior boys both came through difficult semi final matches to make their respective finals. The junior boys who were looking for a third BAISS title in a row unfortunately finished second in the final. The Senior Boys who had struggled to make the finals last year, showed why they deserved to be there this year and fought hard right up until the final whistle, despite injuries and frustrations. They were disappointed with their second place finish but, like the players on all of our teams, were a credit to St Andrew's.

On the back of the BAISS Championships and for the first time, all four of St Andrew's football teams were involved in the National Soccer Finals. The timing of the finals unfortunately affected both of our senior teams with exams making it difficult to train and play. They were of course up against the best teams from all of the islands, but they were still disappointed to leave the competition at the playoff stage.

Our two junior teams were straight into semi final matchups. The Junior Boys were disappointed to lose a semifinal that they had dominated in the first half but they were a credit to the school and worked hard for each other until the final whistle. More than half of the team this season has comprised of Grade 7 students and it was fantastic that they had an opportunity to play at this level so early on in high school.

The Junior Girls team comfortably won their semi-final match 3-0 and progressed into the final the next day. Unfortunately they faced fresh opposition who had been awarded a bye into the final and may well have been the difference. Finishing 2nd in the National Championships is an outstanding achievement.

BASKETBALL

St Andrews had two boys teams represented in the BAISS competition this year with numbers far surpassing last years. It meant that both Junior and Senior teams were well represented at every game. Students had been working hard in training, though many had come of the back of representing the school in Baseball as well!

Both Junior and Senior teams improved dramatically throughout the season, moral remained high, and it was clear that when the season ended, they were hungry for more.

Unfortunately we didn't make the playoffs but the interest in the game, the number students now playing games at lunchtimes, and the continued enthusiasm, ensure that the future of the game, particularly amongst the juniors, is bright.

VOLLEYBALL

Our senior girls and boys volleyball teams showed incredible dedication and determination throughout the season. They worked hard at practices, supported one another, and gave their best in every match. A special thank you to the junior players who stepped up as risk-takers, joining the senior division and rising to the challenge. Many athletes pushed beyond their comfort zones and proudly represented our school. I'm so proud of their growth and teamwork, and already looking forward to an even stronger season next year!

BAISS TRACK AND FIELD

The BAISS Track and Field competition took place in March and once again St Andrew's were able to field a big team. Almost all of the boys events had St Andrew's representation and some of our girls were outstanding. Taylor Moss once again demonstrated that she is one of the best 400m hurdlers on the island, easily making it into the final on the last day. Our U15 4x100m relay team also made it into the finals with a strong performance and we picked up further points in the 800m, 3000m and discus. It was frustrating to miss out in other events by just a few cm or fractions of a second, but there was no disputing the efforts of all of our athletes. Many of our athletes realised the long term work required to reach and sustain the levels of display and resolved to start training earlier in the year next year.

GOLF

In March, students from both our Primary and Secondary schools participated in the National Capital Bank Golf Tournament. Our lower primary girls team placed first with Liv Ward winning the event and Samantha Mahelis coming second. Savannah Mackey helped the team to victory by coming 7th place overall individually.

Not to be outdone, our lower primary boys team, also placed first in the team event, with Zane Gibson winning the event and William Stevenson joining him on the podium in third place. Advik Arora helped the team to success with his 6th place position. In the upper primary, it was a family affair with William Smith just missing out on the individual podium in fourth place and his sister Zohallë Smith coming 6th overall.

Our junior boys team, whose members included William Mahelis, Juan Wilson, Caleb Davis, Lucas Stokes, Carlos Osazuwa, Mirko Gervasini, and Seth Moxley, placed second overall. Finally, our senior boys team of Thomas Robinson, and Aidan Robinson and Gregory Pinto, continued our success with a 3rd place overall finish. The dedication, resilience, and sportsmanship were truly commendable. All golfers representing our school displayed excellence and we are incredibly proud of their achievements and success.

festival OF INTERCULTURAL understanding

From March 31st to 4th April, St. Andrew's International School celebrated a powerful week of global unity during our Festival of Intercultural Understanding. The week was a vibrant expression of who we are as a community, diverse, compassionate and globally minded.

We began with a spectacular Parade of Nations, where students proudly carried flags from around the world, setting the tone for a week of celebration, curiosity and connection. Our guest speaker was His Excellency Thomas Hartley, UK High Commissioner to The Bahamas. Across the school, students and staff engaged in meaningful activities to explore and appreciate different cultures and global perspectives.

Among the highlights were the heartfelt Messages of Hope led by Ms Mallard with student reflections inspired by peers from the UK, Australia, Malaysia, Dubai and Vietnam. Artwork by Mr Sears and Ms Rodrigues brought our "Where in the World Have You Been?" wall to life, the Travel Globe Wall reminded us how interconnected we truly are. Student led presentations were both informative and inspiring, Arabella and Hannah introduced us to the culture of Hong Kong and Gabriella and Lougan shared a passionate appeal for Book Aid International, emphasizing action alongside awareness.

The Creative Display incorporating Sustainable Development Goals Competition brought classrooms alive with color and creativity. Congratulations to the winning countries Egypt (1st) Switzerland (2nd) and China (3rd) for their outstanding displays!

A much loved part of the week was the International Food Fair, generously provided by our incredible PTA. Every student sampled dishes from around the world and over \$653 was raised for charity, a true celebration of culture and community spirit. The week concluded with a joyful Fashion Show showcasing traditional and modern dress from across the globe and the Our World in One Room gallery curated by Ms Tolas and Ms Thompson, offered a stunning display of cultural items and art.

A special thanks to all staff, parents, and volunteers who made the week such a success. At St. Andrew's we believe intercultural understanding isn't just a theme for one week it's a mindset for life. Through empathy, curiosity, and connection, we grow together as a global family.

Grade 4 Science Fair

Grade 4 hosted their annual Science Fair to mark the end of their 'States of Matter' Unit of Inquiry. All students worked independently to research, prepare and complete their science experiments and their trifolds in preparation for the big showcase.

From 'instant ice' to 'dancing raisins' and experiments creating butter, students grew with confidence explaining to visitors and other grades the procedure using scientific vocabulary. They did themselves proud.

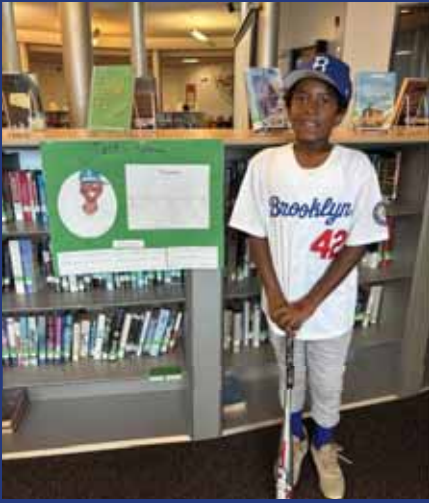

Kindergarten Fairy Tale Day

Kindergarten had a wonderful time celebrating Fairy Tale Day, dressing up as their favourite characters, enjoying enchanting ballroom dancing, and finishing the day with a delightful afternoon tea fit for royalty!

Wheelie Party

Pre Kindergarten 1 ended their theme on Transportation with a 'Wheelie Party'. Students brought in their scooters or bicycles and had a morning of riding in our 'NEW' parking lot. We made sure to have our safety equipment on. Students followed road rules during this time, if not Sheriff Key and Darville were there to issue tickets. What a wonderful way to end a theme.

LIVING WAX MUSEUM

Our Grade 2 students wrapped up their Biographies Unit of Inquiry with an unforgettable Living Wax Museum, stepping into the shoes of historical figures and inspiring personalities. A powerful way to showcase their learning!

On Thursday, January 23, we hosted the concession stand during our school's musical production, "Charley and the Chocolate Factory." The proceeds (\$782.00) of this fundraiser were presented to the Bahamas National Red Cross on Tuesday, February 4th.

On Saturday, March 23rd, our club, raised funds through pizza sales at the PTA's Steak-out and Bar B Que. These funds, along with our dues (25 cents weekly), assisted us in providing the residents and staff of Unity House with lunch during our visit on Saturday, April 5th.

On Tuesday, May 13th, we held our annual Family Fun Fitness Challenge. This Fun-filled event yielded a total of \$1,945.00. \$1,600 was donated to the Bahamas National Red Cross on Tuesday, June 10th, a replacement cover was purchased for our school's Automated External Defibrillator, situated at the Winton entrance and a close-out party was hosted for our hardworking kids.

Members of St Andrew's Red Cross and Principal Gordon McKenzie present a cheque to Ms. Pinder from The Bahamas Red Cross.

Grade 1 Inventors Day

Grade 1 students showed their imagination and innovation during our Inventors Day! Parents were invited to school to partner with their children in building unique inventions. From lava lamps and candy-dispensing machines to a clever "butt pad" for roller skating, the creativity on display was both impressive and entertaining. It was a wonderful morning of collaboration and hands-on learning for all!

Our Communities-Grade 3

Our third graders had the opportunity to become developers of their communities. Each student designed and constructed 3D models of communities that included amenities and highlighted bilingual and sustainable elements. Great job, Grade 3!

Marigolds in May

The K-Kids members collaborated with our Builders Club to raise funds for the children at All Saints Camp. We had a wonderful time arranging beautiful flower bouquets that brought smiles to many.

PYP Exhibition

What an awesome PYP Exhibition this year! The Grade 5 students were rearing to go from the outset. They eagerly attended their Exhibition sessions and contributed with knowledgeable insights. The students chose a wide variety of topics again this year and they spent 10 long weeks dedicated to researching their topics and preparing to share what they had learned with the wider community. Topics included issues such as colon cancer, natural disasters, nutrition, marine poaching, racism, friendships, technology and many more. Exhibition Night displayed fantastic performances and confident students. The 2025 PYP Exhibition was a resounding success!

Eco Garden Tasting

At the end of our final garden harvest each year, students have the opportunity to be adventurous and try the herbs, fruits, and vegetables they've helped to grow. This much anticipated annual tradition wouldn't be possible without the incredible support of our families, so thank you!

Some of this year's standout favourites included "hurricane beets," rosemary bread rolls, banana bread, and homemade salsa just to name a few. It was such a joy to see the students so proud of their hard work and even more excited to taste it!

Preschool Celebration of Learning – Colourful Spring!

On May 23rd, our Preschoolers held their Celebration of Learning with a fun theme: Colorful Spring! Students and their families explored the joy of color through creative and hands-on activities. From painting with their hands to rolling toy cars through paint, and even experimenting with food coloring, everyone had a fantastic time discovering how colors mix and change. It was a joyful, messy, and memorable way to celebrate the beauty of spring and all the learning that took place this season!

Pretending to kiss the toe of John Harvard

Harvard Model United Nations Conference, Boston

The SAIS Model United Nations Club, also known as Model UN or MUN, is an extra-curricular club in which students typically roleplay delegates to the United Nations and simulate UN committees. We traveled to chilly Boston at the end of January 2025 for the Harvard Model United Nations Conference. It was their 72nd iteration and our seventh time in Conference with them. This year, we had a number of senior delegates, veterans of the Yale MUN in 2024 - Georgia, Sienna, Mary Addie and Yinglin Frances, and their participation helped raise the tone of an already high level of discussion on world affairs such as cyber security, the rights of refugees and human trafficking. Ruth, Mia and Zaire as first-timers, really spoke up for themselves in committee sessions, helping their delegations to successful resolution writing, while Maria, Jaxon, Amlan, Arielle, Ariana and Laryssa worked behind the scenes in their delegations to secure voting support. We visited the Harvard campus on our morning off, (fake) kissing the toe of the statue of John Harvard for examination luck, spent a pleasant afternoon in the snow at Faneuil Hall and ate (a lot!) at our farewell dinner. We are planning a trip to the frozen north in 2026 to attend a new Conference - stay tuned!

Earlier this semester, our compassionate Grade 12 Taino students took initiative to have a meaningful impact beyond the classroom. In partnership with our school's service-learning program, they organised a donation drive to collect snacks and lunch bag items for The Bahamas Children's Emergency Hostel on McKinney Drive.

From Jell-O Pots to fruit snacks to cases of water and Capri-Sun, our Grade 12 Taino students rallied our community to gather a generous assortment of nutritious and comforting treats. Their goal? To bring a little joy and practical support to children living away from home.

After a month of collections, the St Andrew's community's efforts ensured that the donation exceeded the target amount of food items and was delivered just in time for mid-term break.

We are so proud of our seniors for leading with heart and serving their community in such a thoughtful way.

Grade 12 Taino CAS Project - donation to The Bahamas Children's Emergency Hostel

Fine Arts (Art Club) Art Workshop

Two of our best tenth grade students were invited to work with some of the most elite Bahamian artists in the country hosted at the ICE Institute. Artists such as Antonius Roberts, Allan P. Wallace, Preston Hanna, Jamaal Rolle and more, were all on stage inviting young artists from a myriad of private and public schools to experience the opportunity to explore four artistic art genres. The students were allowed to choose any two of the available options and gain experience within these styles. Sidtevaney Fox and Lotus Moncur chose drawing and printmaking. The experience was one they would not forget as they had the opportunity to learn and grow as young artists.

Student Council

The Student Council continues to lead with purpose, promoting inclusivity and action on campus. Their recent assembly on "Advancing Neurodiversity and the UN Sustainable Development Goals (SDGs)" sparked meaningful conversations on autism awareness. Taking their advocacy further, they organized an Autism Bake Sale, raising funds that were proudly donated to REACH Bahamas, a nonprofit organization dedicated to supporting individuals with autism.

Creative Arts NYC Trip

During the February break, grades 10 -12 students had the opportunity to visit New York City for an Arts trip with Mr Carey and Ms Petersen. Everyone was excited to visit famous galleries such as the MoMA, MET, the Guggenheim Museum and Mercer Labs. The students were thrilled watching the Broadway shows, Hamilton and The Lion King.

The Lion King was also the focus of a workshop the students attended, which involved the "Artistry of Puppetry" where they learned what was involved with all the puppets used in the Lion King. Of course everyone wanted to experience some of the famous places in NYC, such as skating at Rockefeller Plaza, visiting St Patrick's Cathedral and walking through Central Park. One of the highlights of the trip, was a tour of NBC Studios and recording a short segment of the pretend "Today Show." At the end of the trip, students were eager to sign up for next year's NYC Trip!

UB's Foreign Languages Day

Grade 11 attended the UB Foreign Languages Day and had a wonderful time! The event 'epitomizes our commitment to celebrating linguistic diversity and fostering cultural exchange. It will feature a series of cultural presentations designed to highlight the history, art, and traditions of various countries, including Italy, Mexico, Cuba, Spain, France, China, Brazil, and Costa Rica, among others.

These presentations aim to provide an interactive educational experience that will significantly enhance attendees' understanding of diverse cultural perspectives'. Students sang along to call-and-response performances, got out of their seats to dance the 'son', and enjoyed a morning of entertainment and education.

Builder's Club Toiletry Drive for All Saints Camp

Students from the Builder's Club recently launched a heartfelt community service project to support children living at the All Saints Camp orphanage. Teaming up with K-Kids, who donated funds, the students collected essential toiletry items such as soap, toothpaste, shampoo, and deodorant. Volunteers stood outside Lowe's Pharmacy, kindly asking patrons to contribute by purchasing items for the cause. Additional donations were also gathered from the student body.

Group 4 Project

This year's theme was 'Sustainable Conservation'. On May 19th, students visited the Ardastra Gardens and Wildlife Conservation Centre, where they experienced a guided tour and a lecture on conservation efforts, specifically for the West Indian Flamingo. They used this experience as a springboard for designing their own conservation centers. Students worked in transdisciplinary groups to design a sustainable conservation centre for an indigenous, threatened species. They had to consider and address their feeding requirements, natural habitat, mating, and reintroduction to the wild. The Physics, Chemistry, Biology, and ESS viewpoints all had to be considered.

Each group of students did a commendable job of presenting a sustainable conservation centre for their chosen species, highlighting exemplary research, critical thinking, and collaborative skills, a credit to the sciences.

Art Dept IB Exhibition And Meeting the Miss Teen Bahamas Contestants

The annual IB Art Exhibition was a huge success this year as the 7 students (Mary Schmitt, Aiden Johnson, Amber Pratt, Daryn Sands, Yinglan Huang, David Bain and Logan Burrows) produced a diverse set of art pieces which showed their varied skill sets, voices and visions. They were able to impressively have work sold and got their name out into the art community.

Their work was on display long enough for the Ms. Teen Bahamas contestants to come in and interview the artist and have a private gallery tour of the exhibition. David Bain had a stand out presentation and numerous contestants were moved to tears with his vision and theme. The entire experience is one to be lauded and applauded.

Grades 5 and 6 Transition Experience began with a fun bonding trip to Blue Lagoon

Key Club

It's official: Our Key Clubbers were delighted to receive their Kiwanis International charter. The achievement registers not only the club and school, but each individual member as service volunteers. This achievement further inspired Key Clubbers to continue their community service. One highlight is that they participated in the PTA Barbecue & Mini Fair where they sold snow cones and manned the hoopla table to fundraise for upcoming service and charity projects. Key Clubbers also volunteered at several other booths to support the event.

Senior Prefects

Our Senior Prefects proudly represented our school at the 'One Youth, One Voice' 2025 CARICOM Youth Forum, a prestigious event focused on youth advocacy and Caribbean development. This incredible opportunity was made possible through an invitation from Her Excellency Mrs. Leslia Miller-Brice, the High Commissioner of the Commonwealth of The Bahamas to CARICOM.

At the forum, our students participated in vital discussions, sharing their perspectives and ideas on issues affecting young people across the region. Their engagement not only contributed to meaningful dialogue but also strengthened their leadership skills, preparing them to make a lasting impact both locally and internationally.

World Scholar's Cup Nassau Round

On April 9th and 10th, our school had the great pleasure of hosting the Nassau of the World Scholar's Cup, an international event bringing together students from across the Bahamas to debate, challenge knowledge and work together.

Over 200 students from schools across the island gathered at our school for an intense day of competition, learning and camaraderie. Our students demonstrated their curiosity, critical thinking and true team spirit through the Team Debate, Scholar's Challenge, Collaborative Writing and Scholar's Bowl events.

Thank you to all the staff and volunteers who helped make this event a success. Congratulations to all the participating teams!

GGYA

Highlights

This semester brought our Grade 11 Governor General Youth Award (GGYA) participants the excitement of their 'Adventurous Journey' residential trips, following several months of training. They took part in a two-day camping practice expedition to prepare for their assessed qualifying three-day camping trip, which took place on Eleuthera.

They worked in teams to navigate their pre-planned route using maps and compasses, covering up to 16 kilometres each day. Their teamwork, resilience and determination to complete and pass their Adventurous Journey section were commendable and all should be very proud of their efforts throughout. It was particularly impressive to witness how well all of the St Andrew's students helped each other along the way, all using different strengths and skills to bring the group together and achieve success as a team.

Participants are currently collating and gathering evidence for their Volunteering, Physical and Skills sections to achieve their full GGYA qualification and we are looking forward to celebrating their success next semester, along with the Grade 10 GGYA participants, who will be taking part in their Adventurous Journey section after the summer holidays. Well done to all involved!

Fine Arts Department Field Trip

The art students of grade nine were invited by Ms. Ivanna Gator, a curator at the Central Bank Art Gallery to undertake a field trip to visit two local galleries.

The "To Scatter Seeds" (TERN) and "The Earth and Her Daughters" (CAB). The students first visited the TERN gallery and the students were able to speak with Kachelle Knowles and Cydne Jasmin host artist.

Students were taken to the CAB gallery where they were able to discuss with the resident artist the various pieces of artworks displayed on the walls. They were then taken to the back of the gallery and seen where they were making ink prints and also using clay sculptures, moulds and firing glazed art pieces.

Going Green!

AT GREEN PARROT

"Going Green at Green Parrot" was a fantastic start to the new year in January. The evening was a vibrant celebration of music and sustainability, where students wowed the audience with their exceptional musical talent.

Their inspiring performances not only entertained but also helped raise funds for important eco initiatives, making the evening both unforgettable and impactful. This annual event would not be possible without the generous support of Mr. and Mrs. Peter Maury, to whom we extend our sincere thanks.

Mathematics Field Trip

On Friday, March 14th—Pi Day—a group of our 7th Grade students attended the official launch of the Bahamas Numeracy Association. The event showcased the real-world importance of mathematics through engaging activities, including interactive trivia where students won prizes.

Dr. Kadian Hanson-Wells delivered a motivating keynote, urging students to persevere in math and recognize its broad value. A highlight was a lively panel featuring industry professionals: Elise Roberts (The BRON Ltd.), George Kelly (Essential Services Ltd.), Anquin Cooper (Bahamas First General Insurance), and Clint Higgs, author of the Bahamian Mathematics Workbook.

Our own Rachel Rolle proudly represented the school, confidently discussing the importance of math and sharing real-life examples during an interview.

The day ended with a Pi Day treat—pizza pies for everyone. As the Association's President said:

"The goal is to shift the narrative and show how math is essential in all career fields—from finance and technology to healthcare and the creative arts."

We're excited for this launch to spark ongoing efforts that inspire a love of mathematics across The Bahamas.

Student Council Celebrates Teachers with a Week of Appreciation and Gratitude

On May 5th, 2025, the Student Council honoured their incredible teachers with a week of surprises, thoughtful gifts, and heartfelt gratitude. It was their way of recognizing the educators who had shaped their lives in such a meaningful way.

Class of 2025 Graduation
